Dear [Redacted]

SUBJECT: Source Approval White Pine Spring, PW 101 and Pipeline, WSSN 20166-67

The Michigan Department of Environmental Quality (MDEQ), Water Bureau (WB), in conjunction with the Central Michigan District Health Department, has inspected the well White Pine Spring, PW 101 (formerly known as White Cedar) and related pipeline. Well PW 101 and related pipeline is constructed in accordance with construction permit number 6708002 issued August 28, 2008 and is approved for use. The permitted capacity of well PW 101 is 150 gpm. This well is classified as a nontransient noncommunity water system (Type IIa) under the Michigan Safe Drinking Water Act, 1976 PA 399, as amended (SDWA).

Source PW 101 is located in section 20 of Osceola Township, Osceola County. This is a new source with well PW 101 construction completed on May, 3, 2001. Formal source approval for bottling water from PW 101 is hereby issued. By copy of this letter, the DEQ is notifying the MDA of this approval.

Should you require further information, please contact Mr. Kevin Holdwick, Noncommunity Drinking Water Unit, Drinking Water and Environmental Health Section, WB, at 517-241-1395, or you may contact me.

Sincerely,

Richard L. Overmyer, R.S., Chief

DIRECTOR

March 27, 2009

Mr. Roger Elkins  
City Manager  
City of Ewart  
200 South Main Street  
Ewart, Michigan 49631

Dear Mr. Elkins:

SUBJECT: Nestle / Ewart Water Main Pipeline

The Michigan Department of Environmental Quality (MDEQ), Water Bureau (WB), in conjunction with the Central Michigan District Health Department, has inspected and approved the water pipeline which carries water from the well at Nestle White Pine Spring PW 101 (formerly known as White Cedar) in Section 20 of Osceola Township to City of Ewart well building number 7 for water bottling. Two construction permits were issued for this pipeline with construction permit number 6708002 authorizing construction of the pipeline segment not on City of Ewart property and construction permit number 6708001 authorizing construction of the pipeline segment on City of Ewart property from the west limits of the City of Ewart to well building number 7. This pipeline is interconnect in well building number 7 to a previously approved pipeline that transports water to a previously approved transfer station in the City of Ewart.

Should you require further information, please contact Mr. Kevin Holdwick, Noncommunity Drinking Water Unit, Drinking Water and Environmental Health Section, WB, at 517-241-1395, or you may contact me.

Sincerely,

Richard L. Overmyer, R.S., Chief  
Noncommunity Drinking Water Unit  
Drinking Water and  
Environmental Health Section  
Water Bureau
