

**Important Announcement:** 12noon/April 27, 2011 - Due to the proximity of wildfires near our Moffit Springs water source, we have temporarily suspended operations at that location. The spring water supplying our Houston bottling facility for the Ozarka 1, 2.5, 3 and 5 gallon products will be provided from our Roher Springs and Piney Woods Springs operations (although the label will say Moffit Springs) until we are able to resume normal operations at Moffit Springs. We appreciate your understanding in this matter and will continue to provide updated information via this website during this situation.
