**Nestlé Waters North America Acquires
Snow Valley Mountain Spring Water**

Greenwich, Connecticut (April 29, 2009) – [Nestlé Waters North America](#) today announced its agreement to acquire, pending regulatory approval, Snow Valley Mountain Spring Water, a bottled spring water company servicing Baltimore, Washington D.C. and Northern Virginia markets. Terms of the deal are still under negotiation.

Snow Valley Mountain Spring Water, a member of the [International Bottled Water Association](#), is sourced from springs in Central Pennsylvania. The company, with estimated year 2008 revenues of \$4.8 million, has distributed natural spring water to homes and offices since 1973.

The acquisition takes advantage of significant synergies between Nestlé Waters North America and Snow Valley, and will bolster Nestlé Waters' ability to service consumers in the mid-Atlantic market, where the company already sources, bottles and distributes Deer Park® Natural Spring Water. Nestlé Waters North America's home-and-office delivery service is the largest returnable beverage container program in the country.
