

## Our Product Lifecycle

We believe we have the lightest environmental footprint per unit of product in the packaged beverage industry. Our goal is to track key environmental metrics throughout our product lifecycle, so that we can continue to reduce our impacts. Currently, our metrics include data from the following stages in our product lifecycle:

**WATER USE** Includes water from our sources and used in our manufacturing processes

**ENERGY USE** Includes energy used in our manufacturing processes and to blow our PET bottles

**CO<sub>2</sub> EMISSIONS** Includes emissions from our manufacturing processes

**WASTE MANAGEMENT** Includes waste generated at our manufacturing plants

**RECYCLING** Includes recycled materials salvaged from our manufacturing plants

## Environmental Metrics for Manufacturing Facilities

| Key Performance Indicators                | 2005           | 2006           | 2007           |
|---|----------------|----------------|----------------|
| <b>Total Water Use</b> (liters)           | 12,490,694,000 | 13,923,596,000 | 15,298,089,000 |
| <b>Water Use Intensity</b> (liters/liter) | 1.41           | 1.38           | 1.37           |
| <b>Energy Use</b> *(kwh)                  | 757,184,136    | 853,963,639    | 944,580,408    |
| <b>Energy-Use Intensity</b> (kwh/liter)   | 0.086          | 0.085          | 0.084          |
| <b>GHG Emissions</b> **(tons)             | 51,166         | 52,923         | 54,602         |
| <b>GHG Emissions Intensity</b> (kg/liter) | 0.0041         | 0.0038         | 0.0036         |
| <b>Packaging Materials Use</b> (tons)     | 392,903        | 450,626        | 599,964        |
| <b>Solid Waste</b> (tons)                 | 19,793         | 22,715         | 22,118         |
| <b>Solid Waste Recycled</b> (tons)        | 14,737         | 16,247         | 18,946         |

\* Includes energy from direct combustion of fuels and purchased electricity.

\*\* Includes CO<sub>2</sub> emissions from factories; does not include emissions from purchased electricity.
