RE: COVID-19 Price Gouging Prevention Act

Dear Representatives Schakowsky, Pallone, Cicilline, and Nadler:

On behalf of our over 7,000 associates across the United States, I write this letter to thank you for introducing the COVID-19 Price Gouging Prevention Act. We share a commitment to eradicating price gouging on products, including our own, during times of emergency and believe the enhanced enforcement tools proposed in the Act will assist federal and state officials in significantly reducing the unfortunate practice.

Our company has always proactively worked to protect our consumers from price gouging, we include on our social media channels and websites lists of state price gouging hotlines and other means to communicate bad practices with appropriate authorities. Pricing for consumer retail sales is ultimately set by our retail partners.

We are confident that the majority of retailers act in good faith and are providing fair pricing on goods. However, we appreciate your diligent efforts to protect Americans from unscrupulous bad actors during these difficult times.

We look forward to working with your office on this matter of mutual interest and importance.

Thank you.

Very truly yours,

Charlie Broll
General Counsel
Nestlé Waters North America
